

Current unmet needs of people living with hemophilia:

Can emerging therapies address these needs?

Monday June 26, 2023 | 1:15–2:30 pm EST

Room no. 520, Palais des Congrès de Montréal,
Montréal, Canada

Join us as we map out the current hemophilia treatment landscape, including the unmet needs of people with hemophilia and discuss the recent treatment advances.

Our highly esteemed faculty will debate the potential of the current treatments and emerging rebalancing agents in the context of unmet needs and treatment considerations for people with hemophilia, to explore their impact on the treatment landscape.
